**Jusupta Tarigan (JT)**  
**Executive Director**  
**Non-Timber Forest Product-Exchange**  
**Programme Indonesia (NTFP-EP Indonesia)**

NTFP-EP Indonesia aims to strengthen the capacity of forest-based communities and their support organizations. Employing a participatory strategy, NTFP-EP empowers its partners through information and knowledge exchange of appropriate resource management techniques and experiences, technical support and training, inputs in strategy discussions, documentation of best practices and success stories, mobilization of resources and contacts, advocacy support for local initiatives, and lobby for enabling policies.

Jusupta Tarigan (JT) is a forestry and livelihood specialist with more than 20 years of professional experience in Indonesia. His works, including both research and development, has focused on identifying and developing integrated development approaches that enable local stakeholders to sustainably manage local resources to meet both rural communities' livelihood objectives and government environmental goals. Building viable partnerships of farmers, non-government organizations (NGOs), government agencies and private sector enterprises has been a key component of this successful work.
